

Testosteron ima iznimno važnu ulogu u životu svakog muškarca. On u muškarčevu tijelu djeluje na razne načine i sudjeluje u reguliranju niza vitalnih procesa kao što su formiranje kostiju, izgradnja mišića, metabolizam masti i energije, raspoloženje, seksualno i reproduktivno zdravlje.

Dok normalne razine testosterona pridonose muškarčevu zdravlju i izgledu, snižene razine testosterona mogu se očitovati nizom neželjenih simptoma kao što su smanjenje ili gubitak seksualnog nagona, gubitak erekcije ili njene kvalitete, depresivno raspoloženje, problemi s pamćenjem, debljanje, povećanje grudi, problemi s mokrenjem, gubitak mišićne mase, prorjeđenje tjelesnih dlaka, gubitak energije i snage i još mnogo toga.

Do smanjenja lučenja testosterona očekivano dolazi s godinama, no zbog niza činitelja, od kojih su najzastupljeniji stres, nedostatak sna i neodgovarajuća prehrana, do toga može doći i ranije. Stoga bi svaki muškarac trebao nastojati poboljšati svoj stil života kako bi mu razine testosterona ostale na poželjnoj razini te osigurati tijelu sve što mu je za to potrebno.

**Testomaxx® je dodatak prehrani osmišljen kao nutricionistička podrška muškarcima svih dobi. Snažna je kombinacija važnih aminokiselina, minerala, vitamina i odabranih biljnih ekstrakata koji sinergističkim djelovanjem pridonose održavanju normalne razine testosterona u krvi i normalnoj spermatogenezi muškaraca svih dobi, kao i normalnoj sintezi i metabolizmu steroidnih hormona.**

Testomaxx® sadrži:

- **L-citrulin** (aminokiselina)
- **L-arginin** (aminokiselina)
- **Ekstrakt ginsenga** (*Panax ginseng*) s najmanje 8 % ginsenozida
- **Ekstrakt indijske kosmulje** (*Emblica officinalis*) s najmanje 25 % tanina
- **Ekstrakt sabal palme** (*Serenoa repens*) s najmanje 45 % masnih kiselina
- **Selen** koji pridonosi normalnoj spermatogenezi
- **Cink** koji pridonosi održavanju normalne razine testosterona u krvi
- **Pantotenska kiselina** koja pridonosi normalnoj sintezi i metabolizmu steroidnih hormona
- **Folna kiselina**
- **Vitamin B12**

Svi Biobalans proizvodi sadrže isključivo visokokvalitetne sastojke kapsulirane u vegetabilnu (celuloznu) kapsulu.

**Uputa za upotrebu:** 2 – 3 kapsule dnevno, prema potrebi.

Testomaxx® se može sigurno primjenjivati bez vremenskog ograničenja.

**Upozorenje:** Osobe koje uzimaju lijekove trebaju se prije uzimanja posavjetovati s liječnikom. Ne preporučuje se osobama sa šećernom bolesti i oštećenjem kardiovaskularnog sustava, trudnicama i dojiljama.

**Napomene:** Čuvati od dohvata male djece. Dnevna doza ne smije se prekoračiti. Dodatak prehrani nije nadomjestak ili zamjena za uravnoteženu prehranu.

**Način čuvanja:** Čuvati na suhom i tamnom mjestu, na temperaturi do 25 °C.

Testosterone is the quintessential hormone for a man's health because it plays many key roles in the body and regulates a host of vital processes such as bone formation, building muscles, fat metabolism, energy and mood regulation, sexual and reproductive health.

While having normal levels of testosterone is crucial for a myriad of benefits, having low testosterone levels can negatively impact a man's overall well-being and lead to all kinds of unwelcome problems such as decreased sex drive, erectile dysfunction, depressed mood, memory problems, weight gain, breast enlargement, problems with urinating and more. Every man should be seeking to maximize his testosterone levels by improving his diet, exercising more, managing stress, getting more sleep, and taking natural testosterone supplements.

**Testomaxx<sup>®</sup> is a natural dietary supplement developed especially to support testosterone production in men of all ages. It is a powerful combination of amino acids, minerals, vitamins and proven and potent botanical ingredients, designed specifically to stimulate and maintain healthy testosterone level in men lifelong, and to enhance male reproductive vitality, sperm production and physical performances.**

Testomaxx<sup>®</sup> contains:

- **L-Citrulline and L-Arginine**, amino acids that work powerfully together to promote nitric oxide production
- **Panax ginseng** (*Panax ginseng*) is found to be a promising agent to increase plasma levels of testosterone
- **Amla** (*Emblca officinalis*) has been traditionally used to treat erectile dysfunction
- **Saw palmetto** (*Serenoa repens*) improves prostate health and impotence
- **Selenium** contributes to normal spermatogenesis
- **Zinc** is important in testosterone production
- **Pantothenic acid** supports synthesis and metabolism of steroid hormones
- **Folate and Vitamin B12** provide extra support to hormonal system and overall wellbeing

### Benefits of Testomaxx<sup>®</sup>:

- Boosts and maintains healthy testosterone levels
- Enhances prostate health
- Treats erectile dysfunction
- Enhances strength, energy and endurance
- Improves fertility and sperm quality
- Increases sexual stamina and libido

All Biobalans products contain only high quality ingredients encapsulated in a vegetarian (cellulose) capsule.

**Directions:** 2 – 3 capsules daily, as needed. Long term use is allowed.

**Safety information:** Keep out of reach of children. Daily dose should not be exceeded. Dietary supplements are not a substitute or replacement for a balanced diet.

**Warning:** If you are taking medications, please consult your healthcare practitioner before taking this product. Not recommended for people with diabetes or cardiovascular problems. Not intended for women.

**Storage:** Store in a cool, dry place.
